## **TEACHING EXPERIENCE:**

Mock Oral Board Examiner – American Society of Dentist Anesthesiologists: 2023 – Current  
Examiner and co-developer of the mock oral board examination which was developed by the directive of the ASDA due to popular request by dental anesthesiology residents, recent graduates, and program directors. The first mock oral boards was held in May of 2023 and has continued annually. Aim is to provide residents with a virtual experience that simulates the oral board examination procedure to familiarize candidates to the oral examination process as the oral defense of thesis / dissertation is less common during the educational process.

Board Examiner – American Dental Board of Anesthesiology: 2016 – 2019  
Calibrated as an examiner in 2016, and conducted and graded the national board examination that certifies dentist anesthesiologists. Developed content and policies that streamlined the exam and calibrated examiners to ensure fairness of the examination and grading standards for the oral portion (part 2) of the certifying board.

Affiliate Instructor for Virginia Commonwealth University School of Dentistry: 2016 – 2018  
Instructed 4<sup>th</sup> year dental students, assisting them in becoming prepared for private practice by mentoring them at the Chesapeake Care Clinic. Clinical instruction given in disciplines of treatment planning, 4-handed dentistry, operative dentistry, and oral surgery.

Interim Dental Director and Educator, Chesapeake Care Clinic: 2016 – 2017  
Coordinated dental assisting externs and Liberty University College of Medicine medical students while on rotation at the Chesapeake Care Clinic and Hampton Roads Dental Care.

## **NFPA 99 Healthcare Facilities Code: Technical Committee**

2021 – Current

Served as a Principal to the NFPA: Piping Committee, providing advice and recommendations, as a dentist anesthesiologist and end user of medical gas systems, during the development and updating of code content on a 3-year cycle. A significant focus on my work with NFPA 99, even prior to becoming a Principal (fully credentialed member / expert), was the development of Chapter 15, the medical gas code for dental offices, so that dental offices would no longer be aggregated into Chapter 5 which deals with hospitals and ambulatory surgery centers that provide sedation and anesthesia. Through this role I have also worked extensively with the American Dental Association's and American Academy of Pediatric Dentistry's public policy and legal departments regarding these standards which become building code for dental facilities.

## **Dental Advisory Committee Member**

2018 – Current

Advisor to the Virginia Department of Medical Assistance Services regarding dental services. The Committee members attend all quarterly meetings for the State regarding dental services for eligible enrollees and parties of interest including the 3<sup>rd</sup> party administrator, Dentaquest, and the Virginia Health Coalition and provide counsel on the clinical and private practice aspects of DMAS policies.

## **Expert Witness and Consultant**

2014 – Current

Advocate and expert to the Virginia Dental Board regarding issues such as the use of capnography for sedation and anesthesia (2015 – 2017), Updating Regulations to ADA 2016 Guidelines on Sedation and Analgesia (2016 – 2019), and opioid crisis (current), anesthesia and sedation model legislation (current), case review for regulatory and malpractice claims, and as a subject matter expert on development and review of accreditation standards for dental facilities for the American Association for Accreditation of Ambulatory Surgical Facilities (QuadA, formerly AAAASF).

## **Social Media Advocacy**

2016 – 2020

Published a weekly column in two Facebook groups for dentists and dental students called "Safety in Sedation Dentistry" and "Dental Clinical Pearls." The columns reached over 37,000 dentists and dental students weekly. Topics discussed include management of medical emergencies, current guidelines on sedation and anesthesia in dentistry, management of the medically complex patient, and Federal and State regulatory issues in sedation and anesthesia.
